SUPERB MEDIUM CUP DAFFODILS

Pictured here are four of the splendid "medium cup" daffodils that we admire so much. They have that appearance of quality that would cause them to stand out in any garden. The fine large double-nose bulbs that we supply will make at least two flowers for you and with half a chance they will be of exhibition quality. Such varieties as this were very ex-

pensive a few years ago but with increased production we can now offer them at little more than the price of old common kinds.

3 each of four varieties (12 bulbs) for \$1.35
6 each (24 bulbs) for 2.55
12 each (48 bulbs) for 4.80

TO OUR CUSTOMERS

At the time of preparing this catalog for the printer the struggle of operating a bulb farm in near-war times was beginning to tell on us. The difficulty of obtaining competent help was adding to the burden—in a few days another important member of our force would be leaving for the army. Obtaining new equipment for bulb handling was presenting unexpected problems every day. As this feeling of wonder whether the efforts were worth while was becoming very strong there arrived a letter from a customer in Austin, Texas, who wrote us as follows:

"I wish you could have seen our gardens this spring when we opened them for Bundles for Britain. Received \$750.00 in free will offerings in three hours time! The tulips were gorgeous and blooming as they did along with azaleas, camellias, callas, early daisies, iris, daffodils, etc., besides the dogwood and tree wisterias it made a sight that stopped traffic. I want to thank you for your part in all this for frankly I did not expect much from American grown tulips, but what a pleasant surprise I did have! Thank you, too, for the extra bulbs you sent and for the King Alfreds—they had three and four blooms on each one." That changed the picture decidedly. We realized again how necessary gardens and flowers are in this world of ours. And how much more important the peace and quietude that they bring becomes as the strain on mind and nerves increases as it will in the trying times ahead of us.

Now the bulbs are beginning to roll into the bulb house. How fine they look! Crocuses to brighten the very first days

of next spring and plump brown tulips bulbs that are already beginning to form the embryonic buds for next season's bloom. As we handle these bulbs we wonder whose beautiful garden may be made more lovely by the blossoms they produce.

We feel very fortunate in being able to offer the complete list of tulips which we have this year. Some varieties have had to be removed from the catalog because of too heavy sales last year, but the stocks of many kinds are larger and the bulbs better than last year. Our supply of large healthy daffodil bulbs should be quite ample for the needs of our customers although a few varieties are decidedly scarce. Prices are much the same as last year with a slight general increase to take care of increased costs of production.

Since the supply of some items is rather small and the demand is away above normal we hope that you will send us your orders just as soon as you can. We will appreciate it a lot if you will indicate an additional variety or two that we may use if a certain kind is all sold out.

We sincerely hope that your garden next spring will be the best you have ever had and bring to you a world of pleasure and satisfaction. May our country ever be strong and great that these simple privileges can never be denied to all of us as they have been to countless millions in Europe.

CONLEY'S BLOSSOM FARM.
Pat and Lola Conley.

KING ALFRED (*See page 4*)

Assorted Narcissi - Daffodils For Naturalizing and for Cut-Flowers

This is a really splendid collection of all the different types of daffodils and narcissi. It shows the wonderful diversity of form, size, color and fragrance to be found in this splendid flower. We have sold thousands of these collections and have had a great many compliments from pleased customers. The mixture is hand made from our named varieties and ranges from the large daffodils like King Alfred and Spring Glory through the different sorts of medium cups to the cluster flowered Poetaz and true Poet's narcissi. Each package contains at least twenty different varieties. The double-nose bulbs will produce at least two flowers the first year. The large round bulbs will usually have only one flower the first year but are better for naturalizing as they may be left in the ground one year longer without being dug and divided.

**Large double-nose bulbs, 20 for \$1.00, 100 for \$4.50,
1000 for \$40.00.**

**Large round bulbs, 25 for \$1.00, 100 for \$3.75,
1000 for \$32.50.**

TERMS

All orders amounting to \$2.00 or more, sent postage or express prepaid, unless otherwise specified. On Smaller orders please add 10c to help pay packing and postage. No sales tax in Oregon. Six or more bulbs at the 12 rate. Unless otherwise quoted, 50 or more at the 100 rate and 250 or more at the 1000 rate.

We aim to fill every order with bulbs of the highest quality. If you are not completely satisfied please let us know at once.

This catalog cancels all previous prices.

OLYMPIA

ALL-YELLOW DAFFODILS

AEROLITE. A garden daffodil of the very highest quality. Medium early and very long lasting; free flowering with good stems and foliage. The large flower is beautifully proportioned with medium yellow trumpet and primrose perianth of broad flat petals. **3 for 40c, 12 for \$1.50, 100 for \$12.00.**

BEN HUR. A flower of immense size and beautiful proportions. The pure golden trumpet is of the "loudspeaker" type and deeply frilled. Winner of the highest awards. **Each 25c, 3 for 65c, 12 for \$2.40.**

DIOTIMA. A flower of huge size (perianth 5 to 6 inches across) but nevertheless beautifully proportioned and gracefully carried on 2-foot stems. Considered by many experts as the very best of the new giant trumpets. Broad overlapping perianth of deep primrose, trumpet somewhat darker yellow. Double nose, each 90c, 3 for \$2.50. Round bulbs, each 75c, 3 for \$2.00.

GOLDEN SPUR. Uniform rich golden yellow. The earliest daffodil for outdoors or for forcing. Double nose, **12 for 90c, 100 for \$7.00.** Round bulbs, **12 for 70c, 100 for \$5.00.**

KING ALFRED. This variety is so well known that a description seems almost unnecessary. It is more used than all other daffodils put together. Large deep golden yellow flowers of great substance and long lasting quality. Tall strong stems that hold the flowers erect in the worst weather. Mammoth mother bulbs, the finest to be had, specially selected. **12 for \$1.75, 100 for \$13.00.** Double nose, **12 for \$1.20, 100 for \$9.00.** Round bulbs, **12 for 95c, 100 for \$7.00.**

MATAMAX. Another of the splendid deep golden King Alfred seedlings that have such good substance. This one is especially desirable because it is very late. **3 for 45c, 12 for \$1.60, 100 for \$15.00.**

OLYMPIA. Very large flower with a most beautifully frilled trumpet of clear yellow. The gracefully twisted perianth is primrose. A vastly improved Emperor. Large round bulbs, **12 for \$1.00, 100 for \$7.50.** Double nose bulbs, **12 for \$1.25, 100 for \$9.50.**

STATENDAM. An extremely large daffodil of very graceful proportions. Massive overlapping deep golden yellow perianth, large flaring well formed trumpet. Very vigorous grower.

LARGE TRUMPET

Large round bulbs, each 80c, 3 for \$2.25. Double nose bulbs, each \$1.00, 3 for \$2.75.

TRESSERVE. One of the most popular of the giant trumpet daffodils. Deep canary yellow trumpet with lighter perianth. The widely expanded trumpet mouth is deeply lacinated. Round bulbs, **12 for 90c, 100 for \$6.80.** Double nose bulbs, **12 for \$1.10, 100 for \$8.40.**

WARWICK. The darkest yellow daffodil in the list. A King Alfred seedling, it has all the splendid qualities of its parent with even larger flowers of deep golden yellow. Very early. **3 for 45c, 12 for \$1.60, 100 for \$12.00.**

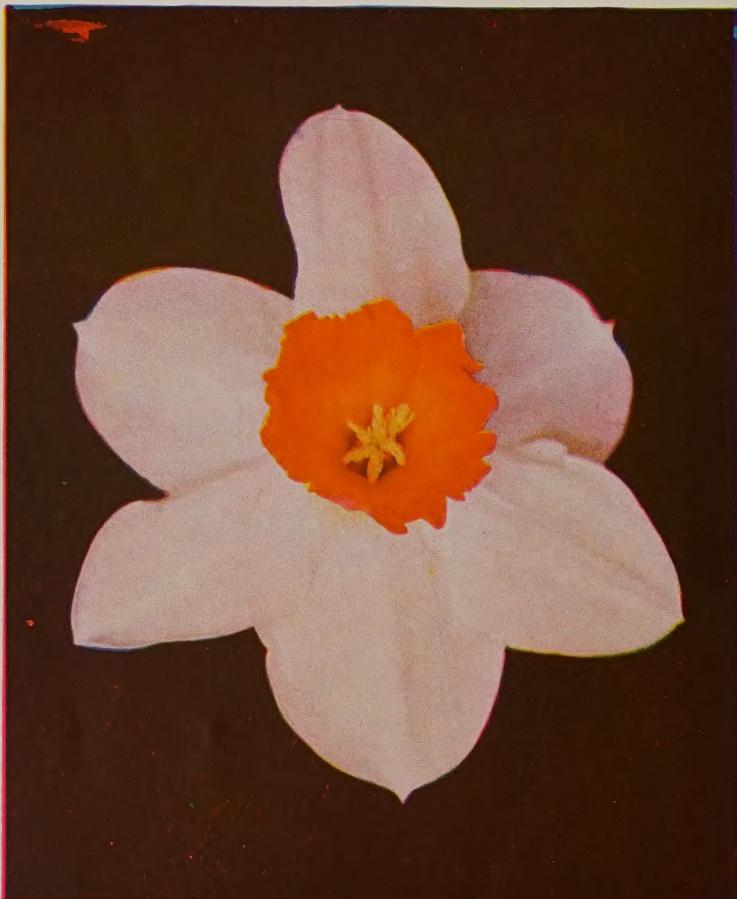

BI-COLOR DAFFODILS

SILVANITE. Bi-color daffodils are apt to look pretty much alike but here is a flower that is strikingly different. The long graceful trumpet is soft canary yellow of an exceptionally pleasing shade. The creamy-white perianth is broad and overlapping. Each 35c, 3 for \$1.00, 12 for \$3.50.

SPRING GLORY. Large golden yellow trumpet backed by long pure white petals. A good clear flower on an excellent stem. Free flowering. Double-nosed bulbs, **12 for 90c, 100 for \$7.00.** Round bulbs, **12 for 70c, 100 for \$5.00.**

VICTORIA. Bold erect flower, creamy white perianth with broad yellow trumpet. Fine forcing and excellent for naturalizing. Double-nosed bulbs, **12 for 85c, 100 for \$6.50.** Round bulbs, **12 for 65c, 100 for \$4.75.**

MIXED LARGE TRUMPET DAFFODILS. Not just a run-of-the-field mixture but a choice assortment made up from the named varieties listed here. At least nine varieties, usually more. Big double-nose bulbs full of flower buds. Double nose bulbs, **12 for \$1.00, 100 for \$7.50, 1000 for \$65.00.** Round bulbs, **15 for \$1.00, 100 for \$6.00, 1000 for \$50.00.**

FRANCISCA DRAKE (See page 6)

DAFFODILS

ALL-WHITE DAFFODILS

In addition to the "white daffodils" listed below we wish to invite your attention to the beautiful Leedsii varieties. Many of these sorts have trumpets or cups as large as the "white daffodils" and are even more attractive.

BEERSHEBA. The lovely form and pure whiteness of this flower have caused it to be cherished by daffodil lovers the world over. The magnificent perianth is perfectly flat and very broad. Earlier than King Alfred and because of its parchment-like substance lasts a long time. Double nose bulbs, each \$2.00. Round bulbs, each \$1.60.

LA VESTALE. A very refined flower of beautiful form and large size. The trumpet is creamy yellow at first but after opening the entire flower becomes waxy-white. Each 25c, 3 for 70c, 12 for \$2.50.

MADAME DE GRAAFF. This graceful daffodil was the first of a new class and the most famous of the white trumpets. A rather low growing free flowering plant. The trumpet opens pale primrose changing to white. Late. 3 for 55c, 12 for \$2.00.

MRS. E. H. KRELAGE. The best white daffodil of medium price. A variety that is so strong and satisfactory that it is often called "the white King Alfred". After opening the flower is a uniform white of waxy texture. 3 for 55c, 12 for \$2.00.

PINK DAFFODILS

Since they are so entirely distinct from other varieties, we are placing these in a little group all their own. Mrs. R. O. Backhouse is officially a Leedsii but that is misleading for it is a large trumpet daffodil in shape.

LOVENEST. A very dainty flower with a nicely shaped trumpet of saffron-yellow turning to apricot-pink. Pure white starry perianth. Medium in height. Very early. Rounds, each 40c, 3 for \$1.10, 12 for \$3.85. Double nose, each 50c, 3 for \$1.35 12 for \$4.80.

MRS. R. O. BACKHOUSE. The famous "pink" daffodil. The long slender trumpet is apricot-pink changing to shell-pink at the deeply fringed edge. Informal ivory-white perianth. Although the whole flower has a delicately beautiful appearance it is really unusually long lasting. Round bulbs, each \$1.40, 3 for \$3.85, 12 for \$14.00. Double nose, each \$1.75, 3 for \$4.80, 12 for \$17.50.

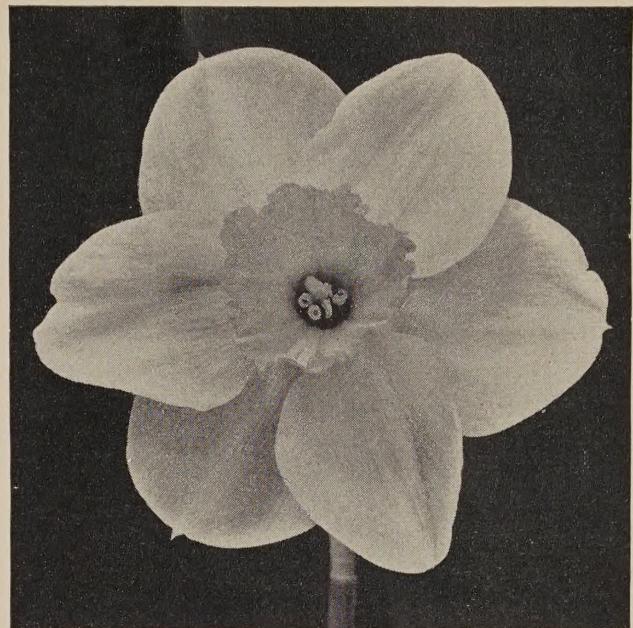

Leedsii Narcissi

Division 4. According to the official classification any white or nearly white daffodil is put in the Leedsii class if the trumpet is shorter than the perianth segment. This results in many varieties being put in the Leedsii class that look like "All White Daffodils", e. g. Daisy Schaffer, Louis Capet, Gertie Millar. Another group has small cups like in the Barrii class, e. g. Queen of the North, Mrs. Nettie O'Melveny.

DAISY SCHAFFER. One of the very finest and largest of the new Giant Leedsii type with flowers as large as a giant trumpet but much more graceful in form. Very wide pure white perianth. Large widely opened cup of light canary-yellow. Double nose bulbs, each \$3.60. Round bulbs, \$3.00.

DELAWARE. This is one of our special favorites. It is a beautifully formed flower of large size. The large trumpet or cup is unusually deeply crinkled and of thick velvety substance. The cup opens a golden quince color and changes to creamy lemon. Pure white perianth. Delightfully fragrant. Each \$1.00, 3 for \$2.75, 12 for \$10.00.

GERTIE MILLAR. Another of the charming Giant Leedsii type that have trumpets as large as the large trumpet division but are much more gracefully formed. Pure white perianth,

MRS. NETTIE O'MELVENY

pale primrose cup deeply fluted and frilled. Double nose bulbs, each 45c, 3 for \$1.30, 12 for \$4.25. Round bulbs, each 35c, 3 for 95c, 12 for \$3.40.

HERA. When this flower is fully developed it becomes a uniform clear white—a very lovely thing. Large broad petaled perianth, medium size cup, nicely frilled, edged with primrose on opening. 12 for 75c, 100 for \$5.00.

LOUIS CAPET. A perfectly formed white daffodil that would add distinction to the rock garden or naturalized planting. White perianth, trumpet type cup of light primrose. Clean upright foliage. 3 for 35c, 12 for \$1.25.

MRS. LANGTRY. White perianth, cup edged lemon-yellow when opening, but soon becomes pure white. Rapid multiplier and free flowering. One of the best for naturalizing. Also can be used to advantage in the rock garden. 12 for 60c, 100 for \$4.

MRS. NETTIE O'MELVENY. A fine tall-stemmed flower with large perianth of pure white, medium size cup of clear lemon-yellow with orange picotee. A delightful flower with more color in the cup than the other Leedsii narcissi listed here. 12 for 80c, 100 for \$6.00.

QUEEN OF THE NORTH. Broad glistening white perianth. Medium size lemon-yellow cup that is prettily fluted. A very attractive flower on a tall stem. 12 for 80c, 100 for \$6.00.

SILVER STAR. One of the very loveliest daffodils and now most moderate in price. Broad creamy-white perianth with a beautifully ruffled wide mouthed trumpet just a shade deeper. Unusually free flowering. 3 for 40c, 12 for \$1.35, 100 for \$10.00.

TUNIS. A magnificent daffodil for the garden and an exhibition variety of much merit. Large long-lasting flowers on tall stems. Attractive tall foliage. Broad waved white perianth. Large expanded cup which opens primrose and changes to white with a well marked frill of coppery gold. Highly recommended for California as well as colder climates. Double nose bulbs, 40c each, 3 for \$1.10, 12 for \$4.00. Large round bulbs, 30c each, 3 for 85c, 12 for \$3.00.

There are a lot of different grades of daffodils—the finest is the large double nose bulbs. This is the grade we supply unless we specify otherwise. These produce at least two flowers per bulb. Many of the bulbs supplied the retail trade, even by the largest dealers is of a much poorer grade. Our round bulbs are a good value, too. However, they give only one flower the first season.

MRS. BARCLAY (See page 7)

Incomparabilis Narcissi

Division 2. The cup or crown measuring from one-third to nearly equal the length of the perianth segments. The perianths are white or yellow and the cups yellow, yellow shaded with red or all red.

BERNARDINO. Broad creamy perianth with fluted cup of soft yellow edged apricot. One of the most beautiful of the medium priced narcissi. Free flowering and good grower. 12 for 80c, 100 for \$6.00.

CARLTON. In the craze for bright orange and red cups there has been a tendency to neglect the beautiful all yellow incomparabilis. This is one of the very best. An immense flower with broad perianth and large gracefully frilled crown, soft clear yellow throughout. Very vigorous plant. Each 70c, 3 for \$2.00.

CROESUS. A very popular and desirable variety. Flat overlapping perianth of light canary yellow. Broad fluted cup of rich orange. 3 for 30c, 12 for \$1.00, 100 for \$7.50.

DICK WELLBAND. This variety would stand out in any collection because of the brilliant contrast between the pure white perianth and the flame orange cup. The color of the cup lasts unusually well. This is a strong vigorous grower and very free flowering. A marvelous exhibition variety. Round bulbs, each 70c, 3 for \$1.90. Double nose bulbs, each 85c, 3 for \$2.40, 12 for \$8.50.

FORTUNE. The most talked about of the newer daffodils and with good reason, for not only is it a flower of great size and gorgeous color but it is extremely early, opening a few days after Golden Spur. Clear brilliant yellow perianth, very large long cup, beautifully frilled, of glowing red-orange. Each \$3.50, 3 for \$10.00.

FRANCISCA DRAKE. A striking flower of brilliant color and unusual form. The petals which reflex somewhat are pure white tinted gold at the base. The large wide cup is flame-orange at the densely frilled edge, shading lighter to the base. Vigorous and free-flowering. Round bulbs, 3 for 65c, 12 for \$2.30. Double nose bulbs, each 30c, 3 for 80c, 12 for \$2.85.

HELIOS. A splendid new all-yellow daffodil somewhat after the style of Sir Watkin but superior in all respects.

Much larger flower of better substance on a longer stem. The cup is deep yellow shaded light orange as the flower develops. Very early. A fine variety at an unusually low price. 3 for 30c, 12 for \$1.10, 100 for \$8.00.

JOHN EVELYN. This will be one of the greatest daffodils for years to come. Pure white perianth 4.5 in. across. Very wide flat cup of yellow, tinted apricot, densely frilled and fluted. 3 for 50c, 12 for \$1.75.

LUCINIUS. A golden yellow self-colored flower of especially fresh pleasing appearance. The broad shallow cup and flat perianth are of excellent substance. Late. 3 for 40c, 12 for \$1.40.

MILFORD HAVEN. Fine flower with creamy white perianth and wide cup, chrome-yellow at base shading into rich orange-scarlet. The cup is beautifully frilled and ruffled at the edge. 3 for 55c, 12 for \$2.00.

RED CROSS. A very large strong flower that is famous throughout the daffodil world. Flat primrose perianth, large deep cup of orange-yellow shading to deep orange at the densely frilled edge. Double nose, 3 for 55c, 12 for \$2.00. Round bulbs, 3 for 45c, 12 for \$1.60.

RED SHADOW. A superb exhibition flower, bold and attractive in appearance. The perianth is creamy-yellow and the cup is dark yellow with orange-red margin. One of the latest Incomparabilis varieties. Each 50c, 3 for \$1.35.

SIR WATKIN. One of the indispensables. A very free flowering variety with splendid foliage and large flowers on good stems. The flowers have a primrose perianth and deep yellow cup. Excellent for naturalizing and for cutting. Large double-nosed bulbs, 12 for 75c, 100 for \$5.00. Large round bulbs, 12 for 60c, 100 for \$4.00.

STELLA PRATT. One of the Red Cross type having a soft yellow star-shaped perianth and large deep yellow cup shading to orange. The edge is deeply frilled and marked with white tips. 3 for 45c, 12 for \$1.70.

WALTER HAMPDEN. The exceptionally large flowers have bright primrose perianth and pure yellow trumpet with a tinge of orange in the frills. Very tall and outstanding. A fine companion for Dick Wellband. Round bulbs, each 50c, 3 for \$1.45. Double nose, each 65c, 3 for \$1.80.

YELLOW POPPY. Here is a very high quality flower at a very low price. The large overlapping perianth is of a particularly pleasing shade of soft yellow. The widely opened cup is bright yellow with a narrow orange rim. Strong tall stems. Highly recommended for garden decoration and cutting and unsurpassed for naturalizing. 12 for 80c, 100 for \$6.00.

Tazetta or Polyanthus Narcissi

Division 8. Bunch flowering narcissi used so extensively for forcing in water and fibre.

CHINESE SACRED LILY. Large clusters of white flowers with yellow cups. Each bulb produces several spikes of the fragrant flowers. Very easily grown in bowls of pebbles, or fibre, and water. Each 10c, 12 for \$1.00.

GRAND SOLEIL D'OR. This variety has been extensively used for forcing but its usefulness out of doors has been too often overlooked. It is as hardy as many of the daffodils. Large clusters of dark yellow flowers with bright orange cups. Tall growing and vigorous. Healthy home grown bulbs. Double nose bulbs, 12 for \$1.00, 100 for \$7.50. Large round bulbs, 12 for 80c, 100 for \$6.00.

PAPER WHITE NARCISSUS. The most popular bulb for forcing in water. Large clusters of pure white, fragrant flowers. We consider the Chinese Sacred Lilies more satisfactory. 12 for 75c, 100 for \$5.00.

Barrii Narcissi

Division 3. Cup or crown less than one-third the length of the perianth segments. The colors are the same as the incomparabilis division. Many of them have cups of intense red. They are free flowering, hardy, and increase rapidly.

ALCIDA. A giant flower which has been a prize winner at shows in this country. Creamy yellow star-shaped perianth, broad yellow cup with blood-orange frill. Vigorous grower and wonderfully free flowering. Very late. 3 for 35c, 12 for \$1.25.

ANNA CROFT. A splendid yellow Barrii, both for show purposes and garden planting. Light primrose perianth, large cup, deeply crinkled and frilled, of darker yellow shading to orange at the edge. Very tall stem. 3 for 35c, 12 for \$1.25.

BATH'S FLAME. A fine strong growing variety with brilliant flowers on tall stems. Large perianth of bright yellow, deeper yellow cup edged orange-scarlet. 3 for 35c, 12 for \$1.20, 100 for \$9.00.

DIANA KASNER. It is so unnecessary to use old inferior varieties when splendid kinds like this are now available at such low prices. Tall upstanding plants with long lasting flowers of great size. Pure white perianth and large fluted yellow cup with bright orange-red frill. 3 for 25c, 12 for 90c, 100 for \$7.00.

FIRETAIL. A very popular flower wherever narcissi are grown. Broad petaled creamy-white perianth and flat cup of orange-scarlet. 3 for 80c, 12 for \$3.00.

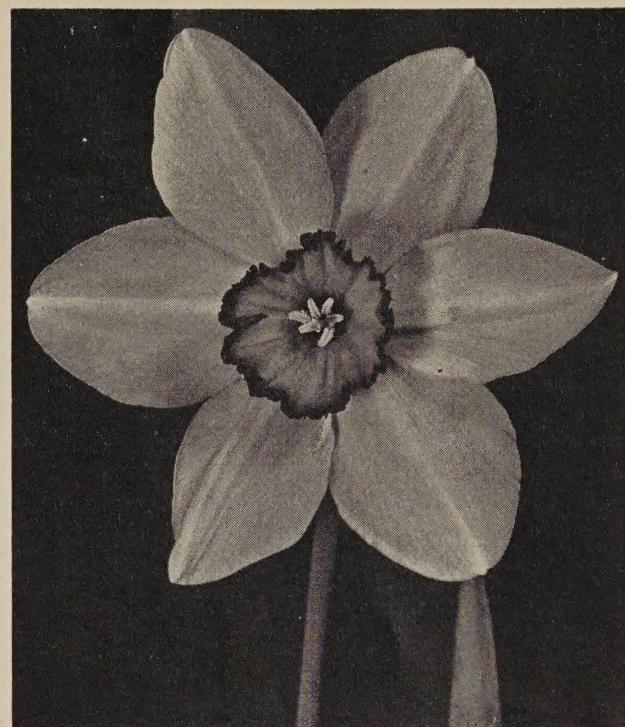

HADES. The wide expanded cup is deep cherry-red, probably the deepest and darkest vivid red in daffodils. The color lasts exceptionally well. The large perianth is creamy white. A strong vigorous variety. Each \$2.00, 3 for \$5.50, 12 for \$20.00.

MRS. BARCLAY. One of the finest varieties now so inexpensive. Broad, round perianth that becomes pure white. The deeply frilled cup is primrose-yellow with a dainty orange picotee. 3 for 45c, 12 for \$1.60.

NANNY NUNN. Creamy white perianth of wonderful substance. Glowing cup of orange-scarlet that lasts well. Late. 3 for 25c, 12 for 90c, 100 for \$7.00.

SHACKLETON. An exceptionally large and graceful flower that is all the more appreciated since it comes near the end of the daffodil season. Broad flat cup of chrome-yellow shading to brilliant scarlet-orange set off by a wide pure white perianth. 3 for 35c, 12 for \$1.25.

SUNSTAR. Another very late Barrii. Creamy white broad overlapping perianth, flat yellow cup with wide orange mar-

BATH'S FLAME

gin. A splendid vigorous plant with tall stems and good foliage. Each 50c, 3 for \$1.40.

Double Narcissi

Division 10. Full double flowers of white, cream and yellow in a variety of attractive forms.

CHEERFULNESS. The double Elvira. Very symmetrical double flowers in clusters of three or four. The longer white petals are interspersed with creamy-yellow. Strong tall stems. 3 for 35c, 12 for \$1.20, 100 for \$9.00.

IRENE COPELAND. Beautiful blossoms made up of alternate layers of pure white and primrose. The very large and fully double flowers have an entirely distinct appearance. Strong rigid stems. Double nose bulbs, each 40c, 3 for \$1.05, 12 for \$3.85. Round bulbs, each 30c, 3 for 80c, 12 for \$3.00.

MARY COPELAND. One of the most famous of the new semi-double type. The longer petals are pure creamy-white, interspersed with shorter petals of lemon and brilliant orange, giving a three-color effect. Double nose bulbs, each 45c, 3 for \$1.25. Round bulbs, each 35c, 3 for \$1.00.

POETICUS FLORE PLENO (*Albus plenus Odoratus*). The much beloved double narcissus of old gardens. The pure white gardenia-like flowers are delightfully fragrant. The latest narcissus. Needs cool moist soil. Not recommended for hot climates. 12 for 80c, 100 for \$6.00.

SULFUR PHOENIX (Codlins and Cream). Beautiful sulfur-white flower. A large informal type of flower on a long flexible stem. 12 for 80c, 100 for \$6.00.

THE PEARL. An unusually attractively formed flower, not too double. Largely creamy-white interspersed with some petals of sulfur-yellow. The flowers have good stems and are borne in profusion. 12 for 80c, 100 for \$6.00.

TWINK. A splendid new double that should be in every collection. It is of the semi-double type with longer petals of soft primrose and inner petals of clear orange. Very early and long lasting. The large flowers are well supported by tall strong stems. 3 for 40c, 12 for \$1.35, 100 for \$10.00.

THE PEARL

Poetaz Narcissi

Division 8. Hardy bunch-flowering hybrids of Poeticus Ornatus and Polyanthus Narcissi such as Soleil d'Or. Tall vigorous growers, bearing heads of large, well-formed fragrant flowers. Excellent garden flowers and very early forcers.

CHEERFULNESS. See double narcissi.

ELVIRA. Three or four large flowers with white petals and yellow cup, edged orange. The flowers are held erect on a strong tall stem with good foliage, making it a very effective variety for garden decoration. 12 for 70c, 100 for \$5.00.

FRANS HALS. Large well formed clusters of white flowers with yellow cups. Good tall stems and foliage. 12 for 80c, 100 for \$6.00.

GLORIOUS. A very fine outstanding flower. Each tall stem bears two or three very large flowers with broad poeticus type perianth and orange-scarlet eye. Particularly recommended for partial shade. Each 50c, 3 for \$1.40.

KLONDYKE. One of the finest yellow poetaz. Four to seven large flowers in the cluster. Rich yellow perianth and darker cup. 12 for 95c, 100 for \$7.00.

MEDUSA. Broad pure white perianth, open fluted cup of bright orange-scarlet. Two or three large flowers on a good tall stem. Second only to Glorious in its class. 3 for 35c, 12 for \$1.20, 100 for \$9.00.

ORANGE CUP. Nice clusters of six to eight florets. The perianth is soft yellow, the beautifully frilled cup is bright orange-red. Lasts better in partial shade. 3 for 40c, 12 for \$1.50.

MIXED POETAZ NARCISSI. An excellent mixture containing all the different colors. 12 for 80c, 100 for \$6.00.

True Poet's Narcissi

Division 9. Poeticus Narcissi. Pure waxy white perianth, flattened eye or cup, yellow with red margin or sometimes all red. More than other types the Poets resent frequent moving. They should have a good deep soil with plenty of moisture. Partial shade is very much to their liking.

ACTAEA. Frequently called the largest Poeticus in existence. A most beautiful exhibition flower. Broad snow-white perianth of great substance, large flat eye broadly margined with dark red. Each 35c, 3 for \$1.00, 12 for \$3.50.

EDWINA. Purest white perianth broad and overlapping. The very flat cup is yellow edged with bright red. Fine form and substance. 3 for 40c, 12 for \$1.35.

GLORY OF LISSE. Large snowy white perianth of heavy texture. Cup yellow edged red. An improved Poeticus Ornatus. 12 for 70c, 100 for \$5.00.

HORACE. Large star-shaped perianth of broad gleaming white petals. Flat red eye. Graceful and free blooming 12 for 75c, 100 for \$5.50.

RECURVUS. The old-fashioned Pheasant's Eye. Perianth pure white somewhat reflexing. Small orange-red cup. Fine for massing in borders or grass. Very late. 12 for 70c, 100 for \$5.00.

SNOW KING. A winner of many prizes and awards as it is a poet's narcissus of the highest quality. Unusually broad glistening white petals; cup with broad red edge. Tall strong stems. 3 for 30c, 12 for \$1.10, 100 for \$8.00.

Jonquils and Jonquil Hybrids

Division 7. Here are the true jonquils—delightfully fragrant deep yellow flowers in clusters with nearly round "rush-like" foliage. The flower stem is round while the stems of the daffodils and narcissi are somewhat flattened. Superb for naturalizing and the smaller ones are fine for the rock garden. Some of the hybrids have trumpets like the large daffodils with jonquil color and fragrance.

BUTTERCUP. One of the graceful hybrids between a single jonquil and large trumpet daffodil. Clear buttercup yellow with straight trumpet and good flat overlapping perianth. Very free flowering, fragrant. Excellent for garden decoration or for cutting. 3 for 35c, 12 for \$1.20.

ODORUS CAMPERNELLI (Single Campernelle Jonquil). Two to four beautiful bright yellow flowers on a tall round stem. Delightfully fragrant. Foliage erect and rush-like. Makes very attractive clumps for the border. 12 for 75c, 100 for \$5.00.

ODORUS CAMPERNELLI PLENU (The Double Campernelle Jonquil). A splendid variety bearing heads of deep yellow double flowers on tall stems. Rich green rush-like foliage. Delightfully fragrant. Like the other campernelles it is much better when not dug for two or three years. 12 for 75c, 100 for \$5.00.

GOLDEN SCEPTRE. Another attractive hybrid of a single jonquil and large daffodil. It has the color and fragrance of the jonquil with a daffodil-like trumpet. Tall stem and attractive foliage. Wonderfully free flowering. The first blooms come quite early followed by secondary stems that result in the flowering period being longer than almost any narcissus in our plantings. Sometimes two flowers on the stem. 12 for 80c, 100 for \$6.00.

JONQUILLA FLORE PLENO (Queen Anne's Double Jonquil). A dainty low growing variety having heads of fully double flowers like tiny yellow roses. One of the very latest narcissi. True jonquil fragrance. 12 for \$1.00, 100 for \$7.50.

ODORUS ORANGE QUEEN. Outstanding for its intense golden-orange color. The flowers, two or three on a stem, are produced in lavish profusion. A delightful variety, rather low growing, for the garden or for cutting. Jonquil fragrance. 3 for 35c, 12 for \$1.25, 100 for \$9.25.

TULLUS HOSTILIUS. Of the jonquil yellow trumpet type. Two or three golden, yellow flowers of remarkable substance. 3 for 40c, 12 for \$1.40.

Mixed Medium and Small Cup Narcissi

These narcissi are especially desirable for naturalizing as they are very hardy and flower with great freedom. A delightful effect would be obtained by planting them in large drifts in woodland or by waterside. As cut flowers these sorts are very graceful and charming. The assortment is a comprehensive one made up from the varieties listed in this catalog of Incomparabilis, Barrii, Leedsii, Jonquil, Poeticus and Poetaz types.

Large double nose bulbs, 20 for \$1.00, 100 for \$4.50, 1000 for \$40.00.

Large round bulbs, 25 for \$1.00, 100 for \$3.75, 1000 for \$32.50.

LITTLE DAFFODILS AND SPECIES

These are distinctive sorts quite apart from the general run of narcissi-daffodils. All are hardy and easily grown and would be quite at home in rock gardens.

Triandrus Hybrids

These hybrids of *Narcissus Triandrus* have a most graceful form. There are usually two or three lovely blossoms in an attractive cluster. Most of them are white or nearly so. We think there are few narcissi more beautiful than Thalia and the very similar Moonshine.

AGNES HARVEY. An exquisite little flower of purest white unmarked by any color. Each stem carries one or two flowers with starry perianth and short trumpet. 3 for 60c, 12 for \$2.25.

MOONSHINE. A very lovely creamy white narcissus of the Thalia type. Often three flowers on a stem, beautifully arranged and gracefully drooping. 3 for 40c, 12 for \$1.45.

PEARLY QUEEN. Each stem bears two or three flowers with star-shaped creamy white perianth and short smooth trumpet of lemon yellow. The distinct pearly sheen provides the name. The drooping flower clusters are freely produced. 3 for 30c, 12 for \$1.10, 100 for \$8.00.

QUEEN OF SPAIN. A wild hybrid discovered in Spain. One of the most distinct and graceful daffodils. Highly recommended for naturalizing and rock gardens. Soft delicate canary yellow with gracefully reflexing perianth. Height 12 inches. Each 25c, 3 for 70c, 12 for \$2.50.

SILVER CHIMES. This outstanding flower has been the winner in innumerable prizes in the small-cupped *Triandrus* division. It is a hybrid of a *triandrus* with a *tazetta* and frequently produces heads of six or eight flowers with pure white perianth and very pale primrose cup. It grows remarkably well on the Pacific coast and other mild parts of the country. For colder climates it makes a beautiful plant to grow in a cool greenhouse. Each \$3.50.

THALIA. Each stem bears two to four flowers of purest white, arranged in a beautiful cluster. It is one of the most exquisite things in our entire catalog. 3 for 55c, 12 for \$2.00.

BULBOCODIUM CITRINUS. The large sulfur Hoop Petticoat. Beautiful pale citron flowers on 6 to 8-inch stems. Prefers a damp sandy peat soil. 3 for 50c, 12 for \$1.80.

BULBOCODIUM CONSPICUUS. Some of the narcissus species are a little difficult to grow but not this little hoop Petticoat. It is not exacting as to growing conditions but prefers a sandy peat soil with plenty of moisture while in growth. The little golden yellow flowers grow about 6 inches high. The foliage is slender and rush-like. We have an extra good stock of bulbs grown from seeds that will prove much more satisfactory than the usual stock. 12 for 70c, 100 for \$5.00.

CANALICULATUS. A dainty little polyanthus narcissus suitable for sunny situations in the rock garden. Tiny heads of three or four florets on 6-inch stems. White perianth and globular yellow cup. Sweetly scented. Grows very easily and increases rapidly. 12 for 70c, 100 for \$5.00.

FEBRUARY GOLD (*Cyclamineus* Hybrid). This beautiful little daffodil is especially desirable for with us the golden yellow flowers each year introduce the daffodil season. The perianth is beautifully reflexed, giving the flower a very distinct appearance. Each 25c, 3 for 60c, 12 for \$2.25.

TWINK (See page 7)

Hints on Growing Daffodils

Like all other bulbs, narcissi-daffodils repay us for giving them the proper care by producing more and better flowers. Start with good bulbs; this almost guarantees flowers for the first year. See that the soil is well prepared. This means deep digging and plenty of plant food, especially phosphates and potash. Early planting is advisable. September is the best month for most parts of the country. Cover the tops of the bulbs about 4 inches, and in cold climates mulch well after the ground has frozen. It is a mistake to leave the bulbs too many years without resetting them. They become crowded and fail to bloom. About every third year, dig the bulbs when the tops have ripened. Store in a cool, airy place and reset in the fall. Never move the bulbs before or during blooming time as it will injure their growth very severely.

ACTAEA (See page 8)

COTTAGE AND THE

MAY FLOWERING TULIPS

WE feel that we are very fortunate to be able to present such an extensive list of the Cottage or Mayflowering Tulips. It contains a wonderful variety of lovely things—many of them our particular favorites in the tulip world. The colors range from the most brilliant reds and yellows to soft pastels and white. Some of the tallest tulips are here and others that are low growing. In form there are cup-shaped, lily flowering, vase-shaped and long egg-shaped blooms. Many of the varieties have Darwin-like stiff stems while many others like Picotee and La Merveille have an especially graceful appearance due to their flexible stems.

For bedding purposes many of the shorter stemmed cottage tulips with their bright clear color are superb.

DIDO

ORANGE, SCARLET AND RED

ADVANCE (Extra early). A sensational new tulip. Not only does it have a flower larger than any Darwin but it comes days ahead of any of the other May flowering or Darwin tulips. The inside of the huge blossom is bright scarlet with blackish blue base. The outside is red with a deep roseate flush. Not more than 12 to a customer. **Each 35c, 3 for \$1.00, 12 for \$3.50.**

ARGO (1). Golden yellow slightly marked on the top with orange which color spreads and deepens as the flower ages. Large cup shaped flowers on strong 28-inch stems. **3 for 35c, 12 for \$1.25.**

GESNERIANA SPATHULATA (Red Rocket) (3). Of all the red tulips this is one of the most brilliant. When fully opened the rich crimson-scarlet flowers make a spectacular display. the effect being enhanced by the deep blue base. The petals are long and pointed. **(28 in.) 3 for 30c, 12 for \$1.10.**

GRENADIER (2). Because of its brilliant red color and low habit of growth this is a superb tulip for bedding purposes. The very large flowers are a dazzling orange-scarlet with yellow base. The Single Early Tulips which are so much used for bedding will be very scarce this year and we recommend Grenadier in their place. Top size bulbs. **12 for \$1.00, 100 for \$7.50.** First size bulbs (will make fine large blooms), **12 for 80c, 100 for \$6.00.**

INGLEScombe SCARLET (3). The planting of this variety is one of the brightest spots in our tulip fields. It always attracts attention. The long pointed flowers are brilliant scarlet with a black base. **(24-in.) 12 for \$1.00, 100 for \$7.50.**

LA MERVEILLE (4). Orange-scarlet flushed rose with yellow base. Large flower of beautiful long shape. Delightfully fragrant. **(20-in.) First size bulbs, 12 for 75c, 100 for \$5.50. Top size bulbs, 12 for 90c, 100 for \$6.75.**

MAYFLOWER (1). This and Advance form a pair of the largest and finest tulips in existence. Very early but about a week later than Advance. Bright old rose with scarlet flush, blue center. **Each 50c, 3 for \$1.40.**

ORANGE KING (2). Glistening deep orange shaded rose with yellow base. Large globular flower. Sweet scented. **(23-in.) First size bulbs, 12 for 75c, 100 for \$5.50. Top size bulbs, 12 for 90c, 100 for \$6.75.**

PRESIDENT HOOVER (4). A splendid new variety that attracts immediate attention. Bright orange-red—a color not too common in tulips. A large flower on a strong tall stem. **3 for 45c, 12 for \$1.60.**

The numbers 1, 2, 3 and 4 indicate relative time of flowering, those numbered (1) being the earliest. The other numbers in parentheses denote height.

PINK AND PINK BLENDS

ADONIS (Lily Flowering) (2). A well colored flower of vivid cerise with white base. The long petals are gently reflexed. **(24-in.) 3 for 30c, 12 for \$1.10.**

BARBARA PRATT. One of the most beautiful of the new hybrid tulips. Color is a radiant cherry pink that does not fade in the sun. The flowers have a charming form with slightly reflexing petals. **(28-in.) 3 for 40c, 12 for \$1.50.**

DIDO (2). Of all the tulips we grow few attract more attention than this splendid variety. The color is a very appealing combination of rich orange-rose with shadings of salmon and orange-yellow. The substance is so good that the large flowers last unusually long. Good strong stems. **(32-in.) 3 for 35c, 12 for \$1.25.**

INGLEScombe PINK (2). Soft rosy pink flushed salmon, changing to rose when in full bloom. A splendid cut flower. Very free flowering. **(2-in.) First size bulbs, 12 for 75c, 100 for \$5.50. Top size bulbs, 12 for 90c, 100 for \$6.75.**

JOHN RUSKIN (3). One of the most graceful and charming of the cottage tulips. Long egg-shaped flower of salmon-rose edged soft yellow. Inside shaded rosylilac. **(18-in.) 12 for \$1.00.**

L'INCOMPARABLE (2). A fine large tulip of medium height. The large oval blossoms are of a rich shade of orange-salmon deepening with age. **3 for 35c, 12 for \$1.25.**

MARCELLINA (Lily flowering) (2). A beautiful pink tulip of the true lily form—the pointed petals flaring outward in an attractive manner. Bright carmine rose with white base and yellow anthers. **(28-in.) 3 for 40c, 12 for \$1.40.**

GESNERIANA LUTEA

NEW HYBRID TULIPS

MARJORIE BOWEN. One of the lovely blends that make the new hybrid tulips outstanding. Deep rose pink with salmon shading, inside gorgeous orange with clear yellow base. (28-in.) 3 for 50c, 12 for \$1.75.

PICOTEE (Maiden's Blush) (3). Opens pure white. Later the gracefully reflexing petals become beautifully margined and penciled with bright pink. An especially charming cut flower. This variety flowers splendidly from the smaller size bulbs. First size bulbs, 12 for 80c, 100 for \$6.00. Top size bulbs, 12 for \$1.00, 100 for \$7.50.

SIRENE (Lily-flowered Tulip) (2). The long petals are sharply pointed and curve outward, giving the flower a true lily form. The color is a most beautiful shade of cerise-pink with a pure white base. One of the most graceful cut flowers among the tulips. 3 for 30c, 12 for \$1.10.

SOLON (Pink Lady). Immense long flowers of soft carmine-rose. Large pure white base with blue ring. A fine show flower. (28-in.) 3 for 50c, 12 for \$1.75.

WORLD'S FAIR (1). A very large imposing new tulip named in honor of the New York and San Francisco World's Fairs. The upper part of the petals is luminous rose-pink shading to creamy white at the base. The color intensifies as the flower ages. A strong sturdy plant, it stands the weather well. (26-in.) 3 for 50c, 12 for \$1.80.

YELLOW AND WHITE

ADRIANI (4). One of the loveliest of clear primrose-yellow tulips. Inside creamy-yellow with deeper yellow base. Yellow stamens. (25-in.) 3 for 35c, 12 for \$1.25, 100 for \$9.00.

ALBINO (1). A splendid pure white tulip of great size. Exquisite for planting in clumps in the perennial border. It flowers very early and because of the heavy substantial flower stays in bloom a long time. (22-in.) 3 for 50c, 12 for \$1.75.

CARRARA (2). This snow-white variety is one of the loveliest tulips in existence. The blossom is round and beautifully molded, supported by a good tall stem—not too stiff. Soft yellow anthers. (27-in.) Supply very limited. 3 for 55c, 12 for \$2.00.

ELLEN WILLMOTT (4). A long pointed flower of soft creamy yellow on a tall strong stem. Deliciously scented. (30-in.) First size bulbs, 12 for 75c, 100 for \$5.50. Top size bulbs, 12 for 90c, 100 for \$6.80.

GESNERIANA LUTEA (3). The large blossoms of deep golden yellow are held at a nice height above the luxuriant green foliage which greatly enhances its beauty in a planting. Pointed petals, yellow base. (24-in.) First size bulbs, 12 for 75c, 100 for \$5.50. Top size bulbs, 12 for 90c, 100 for \$6.80.

INGLES COMBE YELLOW

INGLES COMBE YELLOW (4). Often called the "Yellow Darwin" as it has the true Darwin shape. Large sized flowers of glossy canary-yellow on good stems of medium length. Fortunately we have a large and excellent stock of this fine yellow tulip and can take care of large orders. Since this variety is very free flowering we are listing not only our usual top-size bulbs but the slightly smaller first size grade. The latter will produce excellent large blossoms. (25-in.) First size bulbs, 12 for 75c, 25 for \$1.45, 100 for \$5.50. Top size bulbs, 12 for 90c, 25c for \$1.75, 100 for \$6.80.

MARION VOORHEES. Clear buttercup yellow. Yellow base and anthers. A large but very graceful flower of good substance on a strong stem. 12 for \$1.00, 100 for \$7.50.

MONTAIGNE (3). This spring again we were very favorably impressed by this splendid clear yellow tulip. The large rather pointed flowers are well supported by tall strong stems. 3 for 35c, 12 for \$1.25.

MOONLIGHT (1). Lovely shade of soft pale yellow. Large flower of a fine oval shape. (25-in.) 12 for \$1.00.

MRS. F. E. DIXON (Sulphur Beauty) (4). One of the finest of all Cottage tulips. Immense flowers on strong, stiff stems. The softly colored sulphur-yellow blossoms have an unusual wax-like texture. (28-in.) Each 25c, 3 for 65c, 12 for \$2.50.

NATHALINE MAY. A very tall graceful show tulip. It opens sulfurly white, later becoming pure white with some hardly noticeable crimson spots. Black anthers. (32-in.) 12 for \$1.00.

PICOTEE

FANTASY (Parrot Tulip) (3). Unfortunately our sales of this variety were so heavy last fall that we have only a few bulbs to offer this year. Fantasy is a tulip of largest size and beautiful coloring. The inside is geranium-red, the outside is salmon-pink shaded scarlet with apple-green markings and encrustations. (26-in.) Limit 12 to a customer. 3 for 50c, 12 for \$1.75.

Mixed Cottage Tulips

We recommend this mixture highly where colorful mixed beds are wanted. It would be splendid for cut flowers, too. The mixture contains varieties from our list here and many other new and unusual varieties of which we do not have sufficient stock to list separately. First size bulbs (will make full sized flowers), 20 for \$1.00, 100 for \$4.50, 250 for \$10.75. Top size bulbs, 15 for \$1.00, 100 for \$6.00, 250 for \$14.00.

GIANT DARWIN TULIPS

KING GEORGE V (See page 13)

The Darwin Tulips are characterized by large cup shaped flowers having a squarish base. The stems are strong and tall. They are largely self-colored in shades of red, pink, lavender and purple. There are a few white and yellow varieties, but we depend more on the Cottage group for these shades. Nowadays there is no very important distinction from a gardening standpoint between the Darwin group and the Breeders and Hybrid (Cottage) tulips.

The numbers 1, 2, 3 and 4 indicate relative time of flowering, those numbered 1 being the earliest. The other numbers in parentheses denote height.

VIOLET AND PURPLE

FAUST (2). Dark satiny purple-maroon. Enormous oval flowers of good form and substance. One of the finest dark varieties. 3 for 35c, 12 for \$1.25.

LA TULIPE NOIRE (The Black Tulip) (3). Very dark maroon-black. Fine large flowers of velvety texture. (26-in.) 3 for 30c, 12 for \$1.10.

THE BISHOP. A bright clear violet tulip of the highest quality. Good size, color and substance. It would be delightful flowering above a carpet of yellow pansies or violas. Very limited supply. 3 for 55c, 12 for \$2.00.

Mixed Darwin Tulips

We always try to make this mixture just as good as possible. It contains a large number of varieties chosen to give a wide range of color. Very satisfactory where plantings of mixed color are wanted.

Fine big top size bulbs, 12 for 90c, 25 for \$1.75, 100 for \$6.75. Strong first size bulbs (about 4½ inches around), 12 for 70c, 25 for \$1.35, 100 for \$5.00.

LAVENDER AND LILAC

ANTON MAUVE (3). One of the largest of the lavender tulips. Well formed flowers of rich bluish lilac shading to soft silvery lilac at the edges of the petals. (32-in.) 3 for 40c, 12 for \$1.50.

BLEU AIMABLE (4). Clear lavender, shaded steel blue, with a white base. A beautiful flower of distinct shape. (26-in.) 3 for 30c, 12 for \$1.10.

BLUE PERFECTION (3). This is one of our favorites in the lavender tulips. We like it especially well combined with the lovely pink Cottage Tulip Barbara Pratt. They both have somewhat pointed petals that tend to reflex. The color is bright bluish heliotrope with white base. (29-in.) 3 for 40c, 12 for \$1.50.

DREAM (2). One of the most popular in this class. Large cup shaped flowers of soft heliotrope, inside deeper. Fine for cutting. 12 for \$1.00.

MELICETTE (3). The purest lavender Darwin. Soft lavender shading to light lavender at edges, inside deeper. Very lovely with soft yellow varieties. 3 for 35c, 12 for \$1.25.

MRS. HAROLD I. PRATT (3). This is one of the largest and tallest tulips in our entire list. Beautiful flowers of lilac-mauve with yellow shadings at the edges. Award of Merit, Haarlem. A wonderful exhibition tulip. Each 20c, 3 for 55c, 12 for \$2.00.

REV. H. EWBANK (1). An attractive flower of deep lavender shading lighter at the edges. It would blend nicely with the yellow cottage tulip Moonlight which flowers at the same time. (26-in.) 12 for \$1.00.

WILLIAM COPELAND (1). One of the first Darwins to flower either out of doors or when forced. When forced the color is a clear light lavender, in the open it is much deeper. 12 for \$1.00, 100 for \$7.50.

WHITE AND YELLOW

See also our listing of fine Cottage Tulips under "White and Yellow." Many of these are as tall as and even larger than the Darwins. Inglescombe Yellow is often sold as "The Yellow Darwin."

SPRINGFIELD (3). A beautiful rounded flower of pure soft white. Tall and graceful. Black anthers. (32-in.) Each 25c, 3 for 65c, 12 for \$2.50.

YELLOW GIANT (3). Large finely shaped flower of rich golden yellow, sometimes tinted bronze at the tip of the petals. Tall strong stems. One of the very best of the yellow Darwins. (29-in.) 3 for 35c, 12 for \$1.25.

YELLOW GIANT

PINK AND ROSE

AFTERCLOW (4). A delightful color combination of rosy orange with salmon at the edges of the petals and rich orange inside. Medium size flowers of good lasting quality on tall strong stems. (30-in.) 3 for 30c, 12 for \$1.10.

BARONNE DE LA TONNAYE (4). One of the nicest rose pink tulips. The well shaped flowers are bright rose margined blush rose. (30-in.) 3 for 30c, 12 for \$1.10.

CHERRY BLOSSOM (1). Beautiful rose-pink sport of Pride of Haarlem. It has the large size, early flowering and other good qualities of the parent. The buds are rose-pink marked with green changing to light rose as it opens. 3 for 35c, 12 for \$1.25.

CLARA BUTT (3). No other tulip is held in such deep affection by garden lovers the world over as the lovely soft pure pink Clara Butt. It should be in every garden. The medium size flowers are perfect for cutting. Since this variety is so free flowering we are listing a size smaller than our usual top-size grade. First size bulbs, 12 for 75c, 100 for \$5.50, 250 for \$12.50. Top size bulbs, 12 for 90c, 100 for £6.80.

KATHLEEN PARLOW (3). An exhibition tulip of very great beauty. The color is a soft shade of rose-pink with silvery margin. Large beautifully shaped flower. Tall strong stem. (30-in.) 3 for 65c, 12 for \$2.50.

PRINCESS ELIZABETH (2). Clear rose pink deepening in color with age. Fine for the border or forcing. (28-in.) 12 for \$1.

PRINCESS MARY (3). Considered by many as the finest and tallest of all rose pink tulips. Carmine rose with blush rose margin. A magnificent variety for exhibition or any other purpose. (35-in.) 3 for 55c, 12 for \$2.00.

QUEEN OF HEARTS (2). A very pure shade of clear and soft rose pink. Very large, well-shaped flowers on tall stately stems. (30-in.) 3 for 35c, 12 for \$1.25.

ROSE COPELAND (1). This is the beautiful soft rose-pink sport of Wm. Copeland. It has usually been reserved for forcing and is only beginning to be known as a garden tulip. The flowers are very large and well formed on unusually good stems. One of the earliest Darwins either for forcing or out-of-doors. (25-in.) 3 for 30c, 12 for \$1.10.

VENUS. A very attractive tulip of silvery rose-pink. Beautifully formed large flower on a strong tall stem. Highly recommended. (30-in.) 3 for 40c, 12 for \$1.40.

SHADES OF RED

BARTIGON (2). Fiery crimson shading to scarlet at the margin. Splendid for forcing. (24-in.) 12 for \$1.00.

CITY OF HAARLEM (3). This is certainly one of the handsomest cardinal red tulips. The steel blue base with white ring adds to the attractiveness of the open flower. Strong stem and excellent substance. Carpet a planting of this brilliant red with white violas or arabis. (30-in.) 3 for 40c, 12 for \$1.50.

ECLIPSE (2). Glowing blood red of deep rich shade. Steel blue base with white margin. The huge flowers are very substantial with remarkable lasting qualities. The stems are strong and firm. One of the finest of all of the deep red tulips. (30-in.) 3 for 75c, 12 for \$2.75.

FARNCOMBE SANDERS (2). This old variety is still a great favorite. Large flower of perfect shape colored bright rose-scarlet with white base. It is splendid for mass effects against evergreens. (28-in.) 12 for \$1.00.

FEU BRILLIANT (1). Good clear scarlet Darwins are not very numerous. This is one of the best. Not only is it a fine large flower with a good stem but it is one of the first Darwins to bloom. (28-in.) 3 for 35c, 12 for \$1.25.

JACOB MARIS (3). A fine dark scarlet Tulip somewhat like City of Haarlem but the red is a little lighter. Bold black base circled white. (30-in.) 3 for 35c, 12 for \$1.25.

CLARA BUTT

KING GEORGE V (3). Brilliant cherry-rose. Splendid large flower of unusual substance on a strong stem. One of the finest tulips. (28-in.) 3 for 40c, 12 for \$1.50.

KING HAROLD (3). Deep ox-blood red with white base. A beautiful variety for the garden, standing the weather well. The flowers are large and of good form. 12 for \$1.00, 100 for \$7.50.

NEW ORLEANS (2). A very large and substantial flower of deep crimson red blended with pansy-violet. Unusual and very rich coloring. Fortunately we have a good stock of this very highly rated new tulip. 3 for 50c, 12 for \$1.80.

PRESIDENT TAFT. Deep crimson shading to bright crimson at the edge of the outer petals. Inside scarlet. Not "just another red tulip" but an outstanding and distinct variety. 3 for 40c, 12 for \$1.50.

PRIDE OF HAARLEM (1). The demand for this fine old variety continues strong in spite of the introduction of dozens of new red tulips. The flowers are larger than most and the stem unusually tall. The color is rosy-carmine. (30-in.) 12 for \$1.

PROF. RAUWENHOFF (2). A splendid large flower of bright cherry-red with scarlet glow inside and brilliant blue base. Good strong tall stem. (28-in.) 12 for \$1.00.

SCARLET BEAUTY (3). A fine large flower of clear glowing scarlet—a color so bright that it always attracts attention. A variety of special value for borders or mass planting. (26-in.) 3 for 45c, 12 for \$1.55.

VICTOIRE D'OLIVIERA (Victory) (3). This gorgeous carmine red tulip has usually been reserved for forcing and is not as well known as it deserves to be. Visitors to our farms admire it greatly for its beautiful color and strong upstanding form. (28-in.) 3 for 35c, 12 for \$1.25.

SUNDEW (4). An entirely unique tulip of the Darwin shape but having a finely fringed edge. Carmine red. Very late. 12 for \$1.00.

WILLIAM PITT (2). Dark velvety crimson with purplish shade on outer petals. Excellent forcer and very showy in the garden. (24-in.) 12 for \$1.00, 100 for \$7.50.

BRONZE QUEEN

BREEDER TULIPS

The large class of late tall stemmed tulips is made up of the Breeder, Darwin and Cottage or Mayflowering groups. The Breeders are distinguished by their rich coloring and blending of shades, particularly in purple, gold, bronze, maroon, buff, etc. This rich coloring with great size and length of stem give them a truly majestic appearance. They are real aristocrats of tulip land. Because of their heavy substance many of the varieties are especially long lasting.

BACCHUS (3). A very richly colored tulip-deep violet-blue overlaid with darker grape-like bloom on outer petals. Large flower of long oval shape. (30-in.) 3 for 40c, 12 for \$1.35.

BRONZE QUEEN (2). A beautiful light bronze tulip of largest size. Vigorous grower with strong tall stems. The inside of the big cup is golden bronze, the outside is tinged with a suggestion of violet. (28-in.) First size bulbs, 12 for 75c, 100 for \$5.50. Top size bulbs, 12 for 90c, 100 for \$7.00.

CARDINAL MANNING (4). Wine red flushed rosy bronze shading to lighter bronze at the edges. Large egg-shaped flower. (34-in.) 12 for \$1.10.

CHERBOURG (3). An enormous flower of a beautiful round form. The color is a lovely blending of deep yellow with a suffusion of terra cotta. (32-in.) 3 for 60c.

DILLENBURG (4). A very bright and attractive Breeder of glowing salmon-orange shaded with yellow at the edge. Large well formed flowers of good substance. (28-in.) 3 for 40c, 12 for \$1.50.

INDIAN CHIEF (3). One of the most artistic of Breeder tulips. The color is Indian brown, flushed coppery brown with a burnished metallic sheen. One of the largest tulips ever produced, with flowers 8 inches across, carried on strong 38-in. stems. 3 for 70c, 12 for \$2.50.

LOUIS XIV (3). One of the finest of all tulips. The large long lasting flowers are deep purple shaded steel blue and edged golden brown. A wonderfully rich color combination. 3 for 40c, 12 for \$1.35.

LUCIFER (4). Dark orange shaded rose, inside scarlet-orange. A large bold flower that comes at the end of the season. (28-in.) 3 for 40c, 12 for \$1.50.

MADRAS (3). A really brown tulip. The outside is dark golden bronze shaded violet. The inside is mahogany. (26-in.) 12 for \$1.00.

ORANGE GLORY (Joy McArden). Bright golden bronze overlaid with an orange sheen. Inside bright red-orange. Perfect cup-shaped flower. Lasts unusually well. 3 for 35c, 12 for \$1.25.

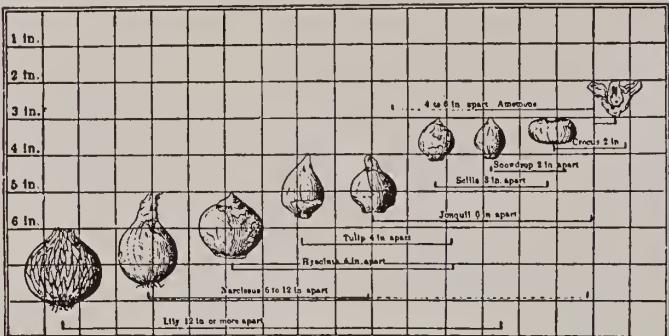

SONATE (3). A spectacular flower of tomato-red, margined orange and flushed carmine on the inside of the large cup. Base yellow and green. Limited supply. Each 60c, 3 for \$1.75.

ST. JAMES (3). Dark rosy lilac flushed bronze and edged golden brown. A beautiful tulip after the fashion of Louis XIV. 3 for 30c, 12 for \$1.10.

SUNBEAM (Reve d'Or, Alice Keith). A very fine new golden bronze Breeder. Large flowers of orange yellow with bronze overtones edged golden yellow. Becomes more beautiful as it ages. (27-in.) 3 for 35c, 12 for \$1.25.

TANTALUS (3). A new Giant Breeder tulip of light cadmium yellow, overlaid with slate violet. Dark yellow base. (30-in.) Each 30c, 3 for 75c, 12 for \$6.00.

VELVET KING. This is one of our special favorites in the dark colored tulips. Rich glossy Royal purple with white base. Large cup-shaped flowers often with an extra number of petals. Splendid substance. 3 for 45c, 12 for \$1.60.

Growing Tulips

Tulips are not difficult to grow in most parts of the country but observance of the following points will help you to produce better blooms and bulbs: Deep preparation of the soil, good drainage, an ample supply of plant food, plenty of water from planting time until the bulbs are ripe. In poor soils the addition of peat moss and a complete plant food will be of great benefit. Cover the bulbs about 4 inches and in the very cold climates mulch well after the ground has frozen. Lift the bulbs each year when the leaves have turned yellow and store in a dry place out of the sun and wind.

In warmer parts of the country such as southern California late planting is necessary. December first is early enough. Unless you have a cool place for the bulbs it is better to order early but let us keep them until planting time. If the ground is dry the beds should be soaked frequently. In these warm climates planting in partial shade is recommended. The flowers last longer and the bulbs make a better growth.

Conley's Special Collection of Giant Tulips

Last year we made this offer of a collection of the finer tulips for the first time and it met with such approval that we are repeating it this year. Included are many rare varieties—tulips that would be unobtainable elsewhere this year. These are sorts of which we have only small stocks, oftentimes varieties that we have been growing for our own information and pleasure. In order to make the color range complete we add to these unlisted varieties some of the choice varieties from the catalog. We believe that you will agree when you receive the bulbs that it really is an unusual and outstanding collection. Each variety will be separately labeled as to variety and color.

5 each of 10 kinds (50 bulbs) for \$4.00
10 each of 10 kinds (100 bulbs) for 7.50

LA TULIPE NOIRE (See page 12)

SINGLE EARLY TULIPS

Long before the Darwin, Cottage and Breeder tulips are in blossom the single early varieties surprise one with their bright and cheerful color which often shows almost as soon as the buds are out of the ground. They have long been very popular for bedding and pot culture, as the flowers are large and the stems short and strong. Many of the Cottage or Mayflowering tulips also may be used for bedding. We especially recommend Grenadier for this purpose.

COULEUR CARDINAL. A warm crimson tulip with a plum colored bloom on the outer petals. A fine substantial flower on a strong stem. One of the best for bedding. (13-in.) 3 for 30c, 12 for \$1.10.

HYACINTHS

The demand for hyacinths was so heavy last year that our supply for this fall is extremely limited. It takes years for a hyacinth bulb to grow to saleable size and there will be no large quantity of hyacinths available in this country as long as the war continues. However, we do have some excellent bulbs of a good list of varieties. These bulbs would be splendid either for pot culture or garden planting. For either of these purposes it is not necessary to use the largest size bulbs, in fact the spikes from the bedding size bulbs are often the more graceful.

These bulbs are available as long as they last in the following colors: Light Blue, Dark Blue, Pink, White, and Mixed.

Separate colors, named as to variety. Large size bulbs, 40c each, 3 for \$1.15. Medium or bedding size, 30c each, 3 for 85c, 12 for \$3.30.

Mixed Hyacinths. A splendid mixture made up from named varieties in a wide range of color. Large size bulbs, 3 for \$1.10, 12 for \$4.25. Medium or bedding size, 3 for 80c, 12 for \$3.10.

CROCUSES

The flowering of the first crocuses is always an important event in the early spring. The yellow ones especially, have a way of popping out all unexpectedly when the sun comes out for a few brief hours. The flowers have so much color and are produced so lavishly that it is no wonder that this is the most beloved of the early spring flowers. Every garden, no matter how small, should have a space for crocuses. NO BULBS AFTER NOVEMBER 10th.

MAMMOTH YELLOW. This is the most popular of all crocuses. The large golden yellow blossoms are produced in great abundance early in the crocus season. Largest size bulbs, 12 for 75c, 100 for \$5.50. Good blooming size, 12 for 60c, 100 for \$4.00.

PURPUREA GRANDIFLORA. Deep glossy purple. Extra large flowers of unusual lasting quality. This splendid variety always commands a premium over other sorts. 12 for 75c.

LARGE FLOWERING CROCUSES MIXED. A choice mixture made up from our splendid named varieties in a wide color range. Largest size bulbs, 12 for 60c, 100 for \$4.25. Good blooming size, 12 for 45c, 100 for \$3.25.

FRED MOORE. Deep ruddy apricot shading to orange yellow at the edges of the petals. A lovely sweet scented flower that is splendid for cutting. (16-in.) 3 for 30c, 12 for \$1.10.

MIXED EARLY TULIPS. A special mixture made up from excellent varieties in a good assortment of colors. 12 for 90c, 100 for \$6.75.

Collection of Single Early Tulips

We have excellent bulbs of a considerable number of varieties of the single early tulips but unfortunately the quantities are not sufficient to justify listing them separately. They are being offered here in an excellent collection. Five splendid sorts in a wide range of attractive coloring, each variety bagged and labeled separately.

6 each (30 bulbs) for.....	\$2.40
12 each (60 bulbs) for.....	4.50

TULIP SPECIES

EICHLERI. Large flowers of brilliant crimson-scarlet with a glistening black center marked gold. Attractively pointed petals that open wide in the sun. The foliage is silvery green. Very effective in the rock garden or border. A dependable species that is easily grown. 3 for 35c, 12 for \$1.25.

MARJOLETTI. A charming species with rather slender flowers of primrose yellow flamed carmine. Very late. (16-in.) 3 for 40c, 12 for \$1.40.

Conley's Rainbow Tulip Mixture

If you do not care about the names of tulip varieties but do want good sorts for a mixed bed or for cutting, we think that you will be delighted with this mixture. Its marvelous colorings are really rainbow-like—red, pink, lavender, purple, violet, orange, bronze, yellow and white. Where but in the tulips can one find such a complete array of beautiful color? Choice varieties of the Darwin, Breeder and Cottage or Mayflowering groups make up our Rainbow Mixture. This is one of our largest selling items and we try to make it just as good as possible. From the many splendid reports received we think we have been quite successful.

Top size bulbs, 15 for \$1.00, 50 for \$3.10, 100 for \$6.00, 250 for \$14.00.

First size bulbs (just a little smaller but will make flowers practically as large as top size), 20 for \$1.00, 50 for \$2.40, 100 for \$4.50, 250 for \$10.75.

SEE PAGE 19 FOR AUTUMN
FLOWERING CROCUSES

MUSCARI (GRAPE HYACINTHS)

CAMASSIA (Camas)

This Oregon native bulb has not been used in gardens in anything like the quantity it deserves. We use bulbs from all over the world and overlook one right at home that is superior to many of the foreign importations.

While the camassias are usually thought of as bulbs which grow in ground that is very wet in winter, that is frequently not the case particularly with *Leichtlinii*. They thrive splendidly under ordinary garden conditions in full sun or in partial shade. As the bulbs may be left undisturbed for years they are excellent for naturalizing. Plant in the fall about six inches deep, preferably in clumps of a dozen or more.

LEICHTLINII. This is the most beautiful of the camassias and the strains we list are the finest to be had anywhere. Well grown plants often reach a height of four or five feet with as many as 100 buds that open in long succession. The beauty of the blue types is greatly enhanced by the bright golden anthers.

Deep Purple Blue. This is the finest camas that we have ever seen. The color is a deep glistening purplish blue with bright yellow anthers. Strong vigorous grower. **12 for \$1.00, 100 for \$7.50.**

Bright Medium Blue. There is considerable variation in this strain, from lavender-blue to violet-blue, but all are beautiful. **12 for 75c, 100 for \$5.00, 1000 for \$45.00.** In this type only we can supply a second size blooming bulb at **12 for 60c, 100 for \$4.00, 1000 for \$35.00.**

White. Some specimens are pure white, others have a creamy tinge and occasionally one is tinged with lavender blue. **12 for 75c, 100 for \$5.50.**

All Colors Mixed. An excellent mixture containing all the above. **12 for 75c, 100 for \$5.00, 1000 for \$45.00.**

Leucojum (Snowflakes)

AESTIVUM. Apparently the variety that we have been calling *Vernum* is properly *Aestivum*. In any case it is an attractive flower like the snowdrops but with longer stems and more flowers and later flowering. Nodding white blossoms tipped green on stems up to a foot high. The foliage resembles a narcissus and the culture is much the same. Plant about 3 or 4 inches deep. **12 for 80c, 100 for \$6.00.**

Muscari (Grape Hyacinths)

Grape hyacinths are one of the most dependable of small bulbs for naturalizing. Each bulb bears several spikes that last a long while. Established clumps, particularly in partial shade, grow stems that are long enough for cutting. The bulbs are so inexpensive that they can be used in large masses.

ARMENIACUM. This is a taller and stronger grower than Heavenly Blue. Each bulb produces many spikes of deep cobalt blue flowers. Strong spicy fragrance. **12 for 60c, 100 for \$4.00.**

HEAVENLY BLUE. A splendid variety for mass planting as it increases rapidly. Each bulb produces several spikes of bloom in succession. The color is a bright deep blue. Standard size, **12 for 40c, 100 for \$3.00.** Extra large bulbs, **12 for 60c, 100 for \$4.00.**

Scillas

The scillas are most satisfactory bulbs for naturalizing and borders. They thrive in woodland or full sun and increase in beauty from year to year. Rodents or insects do not bother them. The *campanula*'a (*hispanica*) varieties have erect stems 10 to 12 inches high—higher in rich shady places. To obtain the best effects they should be left undisturbed for several years when they form good clumps.

CAMPANULATA (*hispanica*) ALBA MAXIMA. Fine large flowering white. The spikes somewhat resemble Lily-of-the-Valley blossoms. **12 for 60c, 100 for \$4.00.**

CAMPANULATA BLUE. Fine deep blue. Tall vigorous grower. **12 for 60c, 100 for \$4.00.**

CAMPANULATA ROSEA. A very attractive shade of soft pink. Fine large spike. **12 for 60c, 100 for \$4.00.**

CAMPANULATA MIXED. An excellent mixture of all the above colors. **12 for 50c, 100 for \$3.50.**

NUTANS ALBA MAJOR. The pure white form of the English bluebell or wood hyacinth. The little bells are more slender than those of the *campanula* varieties, and the whole plant is more light and graceful. Very free flowering and easily grown. **12 for 60c, 100 for \$4.00.**

WEST COAST NATIVES

BRODIAEAS and Similar Bulbs

The Brodiaeas are attractive bulb flowers with numerous florets in large clusters or umbels on slender but strong bare stems. The blossoms are very long lasting either on the plant or when cut. Hardy and easily grown in almost any soil either in full sun or partial shade. They should have plenty of moisture until blooming time. Plant about 3 inches deep.

CAPITATA. A close cluster of violet-blue flowers on slender stems about 2 ft. high. A long lasting cutflower. 12 for 50c.

GRANDIFLORA (Harvest Brodiaea). A few large glossy purple flowers of great beauty make up the umbel of this variety. Very long lasting. Naturalizes easily, especially in clay soil. 12 for 50c, 100 for \$3.00.

HENDERSONII. This pretty species has a head of eight to twelve tubular flowers, soft yellow with a purple line down the center of each segment. About 12 inches high. 12 for 60c, 100 for \$4.00.

LAXA "Blue Milla." The fine blue flowers grow in a large spreading umbel—6 to 8 inches wide. It is really a splendid thing. 12 for 70c, 100 for \$5.00.

MIXED BRODIAEAS. A splendid assortment of the different types and colors. We think you will find this a very interesting mixture. 12 for 50c, 100 for \$3.50.

BREVOORTIA IDA-MAIA (Brodiaeae Coccinea). Floral Firecracker. An unusually attractive and interesting flower. The flower heads are made up of a dozen or so tubular florets colored brilliant crimson with pea-green tips. Stems 1½-2 feet. 12 for 70c.

ALLIUM AMPLECTANS. An attractive little allium that looks very much like a pink brodiaea. Many bright rose-pink florets set closely in a compact umbel. 12 to 15 inches. 12 for 50c.

ERYTHRONIUMS

These West coast erythroniums are exquisitely beautiful plants. Not only are the flowers lovely with their delicate shades of white, yellow, pink and lavender but the foliage is beautiful, too, richly mottled. They prefer light shade and a moist, but well drained soil rich in leaf mold. Do not expose the bulbs long as they soon suffer from overdrying. Plant about three inches deep.

We are following here the nomenclature of Prof. Applegate of Stanford University in his revision of the genus based on a life-long study of the Western Erythroniums.

HELENAE (Californicum bicolor Purdy). The outer part of the petals is pure white, the inner part golden yellow without markings of any kind, the two colors sharply divided. A strikingly beautiful and responsive plant in cultivation, the bulbs increasing rapidly. Delightfully fragrant. 12 for 70c, 100 for \$5.00.

HENDERSONII. A beautiful species fittingly named for Prof. L. H. Henderson, curator of the herbarium of our University of Oregon. The blossoms are light to dark lavender with very dark bases surrounded by a white or yellowish zone. 12 for 50c, 100 for \$3.50.

MULTISCAPOIDEUM (Hartwegii). Creamy white flowers shading deeper toward the throat, each one on a separate stalk, stands more heat than other varieties. New bulbs are freely formed around the base of the old bulb. 12 for 60c, 100 for \$4.00.

OREGONUM (Giganteum). This splendid species from our own part of the country is one of the finest of all. The flowers are large on branching stems usually about a foot high. Their color is creamy-white banded toward the center with maroon. The leaves are often very large and strikingly mottled with dark brown. 12 for 75c, 100 for \$5.50.

REVOLUTUM (Revolutum Johnsonii Purdy). This delightful species has most enchanting pink flowers. It is a native of the Oregon coast and should have ample moisture throughout its growing season. 12 for \$1.00, 100 for \$7.50.

TUOLUMENSE. This species is quite distinct from all the others. The flowers are deep golden yellow. The large leaves are not mottled. The bulbs are very large and increase rapidly by forming offsets. 12 for \$1.00, 100 for \$7.50.

CALOCHORTUS (FAIRY LANTERNS)

CALOCHORTUS

Globe Tulips or Fairy Lanterns

These are the daintiest little flowers imaginable. Each gracefully arching stem carries a number of the little pendant globe-like tiny Chinese lanterns. They are natives of woodlands where they have partial shade and plenty of leaf mold.

ALBUS (White Fairy Lantern). Exquisite white flowers with a faint greenish tinge on slender arching stems about a foot high. 12 for 55c, 100 for \$3.80.

AMABILIS (Yellow Fairy Lantern). Several clear yellow flowers on slender branching stems up to 15 inches high. 12 for 65c, 100 for \$4.50.

AMOENUS (Rose Fairy Lantern). Similar to Albus but the flowers are soft rose pink. About 9 inches high. 12 for 65c.

12 each of the above charming fairy lanterns for \$1.65.

Star Tulips or Cat Ears

Delightful little plants called "cat ears" because the dainty open cups are often filled with silky hairs. Plant about 3 inches deep in open sun or light shade.

BENTHAMI. Bright yellow flowers frequently marked black at the base. The slender stems are about 8 inches high, usually branched. 12 for 60c.

LILACINUS. Delightful little cups of soft lilac which open wide to the sun. A native of open moist meadows, it is of easy culture. 12 for 60c.

MAWEANUS. The slender branching stems bear several white flowers shaded purplish at the base. The inner surface is covered with soft lavender hairs. 12 for 50c, 100 for \$3.50.

Mariposa or Butterfly Tulips

The name is derived from the fancied resemblance of the petals with their large eye and markings to butterfly wings. These calochorti are of easy culture. They are not particular as to soil but must have full sun, good drainage and be allowed to remain entirely dry after ripening off.

EUCARPUS. Beautiful large flowers of white with a large purple blotch on each petal. A slender stem 12 to 18 inches long holds erect an umbel of several flowers. Very hardy. 12 for 75c, 100 for \$5.50.

MACROCARPUS. Exquisite lavender flowers with a greenish band down the back. One or two flowers on a stiff stem about a foot high. 12 for 75c, 100 for \$5.50.

VENUSTUS ELDORADO. The flowers of this strain show a wonderful variation in color and markings. While many of the flowers are white, others are in shades of pink and lavender. All of them are beautifully marked like gay butterflies poised for flight. Each petal has a large splash of deep maroon with colored veinings toward the base. The plants grow about 1½ feet high with well branched stems. 12 for 60c, 100 for \$4.00.

VENUSTUS CITRINUS. An excellent species with deep rich yellow flowers marked with a black eye. Graceful slender growth. 12 for 60c, 100 for \$4.00.

MIXED CALOCHORTI. An extra good mixture of all the different types—cat ears, globe tulips and mariposa tulips. 12 for 60c, 100 for \$4.00.

RANUNCULI

These good ranunculi are becoming increasingly important garden flowers along the Pacific Coast and other parts of the country blessed with moderate winters. The profusion of beautifully colored flowers over a long period make them unexcelled for beds and flower borders.

TECOLOTE GIANTS MIXED. Exacting selection has made this the finest strain that can be obtained. If well grown the flowers will be almost 100 per cent double. Poor growing conditions and late planting increase the proportion of single flowers. The colors are magnificent, varying from pure white and yellow through orange scarlet and pink to deepest red.

Top size. For those who want something especially fine we have a limited quantity of these extra large roots. **12 for 60c, 100 for \$4.00.**

No. 1 size. The grade we have usually supplied and probably the best value for your money. **12 for 45c, 100 for \$3.00.**

No. 2 size. These will give a splendid display where ranunculi grow well. It is the same fine strain. **25 for 50c, 100 for \$1.65.**

GOLDEN YELLOW. Splendid large double flowers of brilliant golden yellow. One of the finest ranunculi. **12 for 60c, 100 for \$4.00.**

ORANGE SHADES. A new selection that has attracted much attention because of the brilliance of the color. **12 for 70c, 100 for \$5.00.**

PINK SHADES. Delightful pink flowers in many lovely shades. **12 for 70c, 100 for \$5.00.**

RED SHADES. This strain contains many shades of red from orange-red to deep crimson. Large flowers. **12 for 60c, 100 for \$4.00.**

WHITE SHADES. A very popular new selection of beautiful double white flowers. **12 for 70c, 100 for \$5.00.**

RANUNCULUS TECOLOTE GIANTS

Anemones and Ranunculi

Half Hardy

Where these two splendid flowers can be grown they should be an important part of the planting. Each so-called bulb or root will make a nice clump of perhaps 12 or 15 spikes. The anemones particularly flower over a long period in the late winter and early spring. They will live outdoors through the winter without any great difficulty along the Pacific Coast. Where the winters are more severe they need to be well protected or planted in the early spring. They can be planted in pots in the early spring and be slipped out of pots where they are wanted in the garden after danger of freezing is past.

The best method of starting Anemones and Ranunculi is to place the roots in moist sand in a moderately warm place until new root growth starts, then plant out in loose sandy soil, covering about 2 inches deep. Make sure the drainage is good. A good supply of plant food and plenty of water are needed during the spring to produce large flowers.

Unless otherwise specified our bulbs are of the No. 1 grade of the very best quality. Please do not confuse these with bargain lots being offered at extremely low prices. These are usually No. 4 grade or even sweepings from the bulb house floor.

ANEMONES

ANEMONE MONARCH DE CAEN. A robust strain of the single poppy type anemone with immense flowers on long strong stems. The colors are shades of scarlet, pink, lavender and blue. **12 for 40c, 100 for \$2.50.**

BLUE POPPY. A beautiful strain of deep blue. Large single flowers on strong stems. **12 for 50c, 100 for \$3.50.**

HIS EXCELLENCY. Vivid red flowers with a white base. Large single poppy type anemone. **12 for 50c, 100 for \$3.50.**

THE BRIDE. Large single pure white. Strong and vigorous growth. The stamens and central boss are white slightly tinged with green. **12 for 50c, 100 for \$3.50.**

ST. BRIGID-CREAGH CASTLE. The plantings of this noted strain were a sight never to be forgotten. Glorious large double flowers of brilliant red, pink, and blue and softer shades above attractive deep green foliage. There is probably no better strain on the market. **12 for 50c, 100 for \$3.50.**

ANEMONE MONARCH DE CAEN

Baby Gladiolus

These are delightful little flowers for the garden and charming as cut flowers. Quite lacking in the stiffness of the large flowering types. Easily grown and hardy to about 10° F. In colder climates grow them in a frame or cool greenhouse. Plant in September or October about 4 inches deep and give some protection during very cold weather.

BLUSHING BRIDE. Attractive flowers of white with delicate pencilings of red. Supply limited; give second choice.

FIERY KNIGHT. As the name indicates, a fiery red, deeper than Spitfire. Supply limited; give second choice.

PEACH BLOSSOM. A very beautiful shade of soft pink. Very free flowering.

SPITFIRE. The hardest and most vigorous of the baby glads. Splendid spikes of brilliant salmon red. Highly recommended.

Large healthy Northwest grown bulbs of any of the above varieties, 12 for 75c, 100 for \$5.50.

MIXED BABY GLADS. A choice mixture made up of the above sorts and many others. Same high quality bulbs, 12 for 60c, 100 for \$4.00.

FREESIAS

Freesias

The sweet fragrance and ease of culture make the freesias a very desirable bulb for indoor culture. They are increasing in popularity for out-of-doors where the winters are mild, as in parts of California.

GOLDEN DAFFODIL. A giant golden yellow Freesia of the highest quality. Early flowering. 12 for 45c, 100 for \$3.00.

PINK SUPREME. Large bright pink flowers of good substance. One of the best pinks. 12 for 45c, 100 for \$3.00.

PURITY SUPERFLORA. An improvement over the old Purity. It blooms very early and can be forced with great ease. Extremely fragrant. 12 for 30c, 100 for \$2.00.

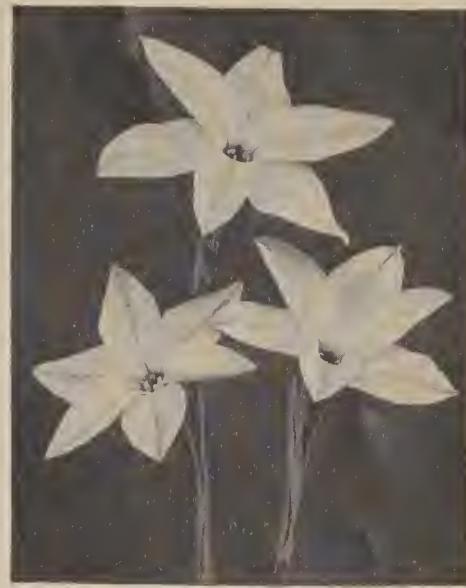

Ixias (Corn Lilies)

Slender graceful spikes of brilliant flowers in shades of yellow, pink, white, and red. Easily forced and splendid outdoors for milder climates. Where winters are severe they need good protection. Mixture of a great many varieties. 12 for 45c, 100 for \$3.00.

Ornithogalum

ARABICUM (Star of Bethlehem). Large clusters of white star-shaped flowers with black bead-like centers. Stems 1 to 1½ feet high. Hardy here but needs good protection in colder climates. The bulbs closely resemble hyacinth bulbs. 12 for 80c, 100 for \$6.00.

UMBELLATUM (Star of Bethlehem). A small white hardy variety often found in old gardens. Rapid of increase and is well suited to naturalizing. Numerous little star-shaped flowers on branching stems 4-6 inches high. 12 for 60c, 100 for \$5.

TRITELEIA UNIFLORA VIOLENCEA

Triteleia (Milla)

UNIFLORA VIOLENCEA (Spring Star Flower). Each 3-inch stem bears a single pale blue flower with white center. Delightfully fragrant. Excellent in the rockery or under trees and shrubs. The bulbs increase rapidly and soon carpet the ground. 12 for 60c, 100 for \$4.00.

Sparaxis

TECOLOTE HYBRIDS. These brilliant low growing flowers were the center of much interest in our plantings this spring. The highly colored blossoms with their vividly contrasting centers make a very effective display. Most of the flowers are shades of red, orange and salmon with centers of black, violet, or yellow. Others have no markings.

The bulbs withstood a week of cold weather with temperatures down to 14° and came through uninjured. Plant in fall or early winter, 3 inches deep, in full sun. Give some protection in very cold weather. 12 for 50c, 100 for \$3.50.

Oxalis

ADENOPHYLLA. A rare hardy variety for the rock garden or growing in pots. Compact rosettes of foliage bearing for a long time many dainty pink flowers. 3 in. tall. 3 for 55c, 12 for \$2.00.

AUTUMN FLOWERING BULBS

Give new interest to your fall garden by planting these attractive bulbs. When so many other plants are dying they burst forth with new fresh beauty.

No bulbs after October 15.

AMARYLLIS BELLADONNA (Belladonna or Resurrection Lily). This native of the Cape of Good Hope is hardy on the Pacific Coast and in the District of Columbia. The rich broad leaves grow in the winter or early spring. After they die down the bulb remains dormant until about August. Then suddenly it sends up its flower spike to a height of 2 feet, bearing a cluster of large, lily-like flowers of a beautiful rose-pink. Each 20c, 12 for \$2.00. (To the 5th zone only. For farther distant points, inquire for prices.)

COLCHICUM AGRIPPINUM (Parkinsonia). A distinct and attractive variety with checkered rosy-purple flowers. The flowers and leaves are smaller than the other sorts and hence are more suited to the rock garden. Very effective planted with Amaryllis Belladonna, as they flower at the same time. 3 for 50c, 12 for \$1.75.

Autumn Flowering Crocuses

No Bulbs After October 1st

The lovely airy blossoms appear magically from the bare earth, producing bright spots of lilac and lavender at a time when such fresh clear colors are very scarce. They would be delightful in pockets of the rock garden.

SATIVUS (Saffron Crocus). Large flowers of purplish lilac, feathered violet, with showy orange-red stigmata. Free flowering when established. Late. 12 for 75c.

ZONATUS. Beautiful flowers of soft rose-lilac with yellow throat. Very free flowering and easy to grow. It increases both by division and self-sown seed. One of the earliest to bloom. 12 for 60c, 100 for \$4.00.

HARDY GARDEN LILIES

Oregon-grown lily bulbs have become known as the best obtainable. Not only are they healthier than the imported stock but they can be supplied in a fresh condition with live roots all ready to start growing. Also they are available in the best planting time in the fall.

The varieties listed below are all easily grown if the few precautions are observed. They all need good drainage. With a few exceptions they should have a ground cover and plenty of moisture during the growing season.

Lilies do not like to be disturbed and when possible should be planted where they can be left for several years. The bulbs increase by division, forming clumps that become more beautiful from year to year.

L. UMBELLATUM

CANDIDUM (Madonna or St. Joseph's Lily). A tall stately lily with pure waxy white blossoms. Delicious fragrance. Early June to July flowering. Plant in early fall preferably in open sun where the ground will dry out in late summer. Does not like acid soil. Do not cover more than 2 inches. No shipments after October 15. Strong flowering size, 20c each, 12 for \$2.00. Large bulbs, 40c each, 12 for \$4.00.

FORMOSANUM (formerly Philippinense Formosanum). This is a trumpet type lily something like the Regal. The flowers are more slender and the type which we list is much later, blooming in September and October. The long trumpet blossoms are pure waxy white with a greenish throat and shaded on the outside with chocolate. Although introduced only a few years ago this fine lily has already become very popular. Plant 5 to 6 inches deep in well drained, lime free soil, rich in leaf mold. Sunny situation. Makes a small bulb for size of plant. November and December delivery. Blooming size bulbs, 15c each, 12 for \$1.50. Large bulbs, 25c each, 12 for \$2.50.

HANSONI. A most desirable lily, very handsome, dependable, hardy and of easy culture. Four to five foot stems bearing many reflexing waxy blossoms of bright orange-yellow. Plant in partial shade, 10 inches deep. June flowering. 40c each, 3 for \$1.10. November and December delivery.

HENRYI. Gracefully recurved blossoms of rich orange-yellow with green band at the center. Tall slender stem sometimes reaching eight feet in established clumps. Very hardy and extremely dependable. Plant 10 inches deep, preferably in partial shade. August-September. Large bulbs, 40c each, 12 for \$4.00. Good flowering size bulbs, 20c each, 12 for \$2.00. November and December delivery.

REGALE. The most popular lily in America today. The large trumpet is pure white flushed yellow in the throat. On the outside the white is shaded with wine color. Very vigorous, extremely hardy and succeeds almost everywhere. Established bulbs often have over 20 blooms on stems 5 or 6 feet high. Plant 8 to 10 inches deep in good fertile soil where they will have good drainage. July flowering. Medium size blooming bulbs (6-7 in.), 10c each, 12 for \$1.00, 100 for \$7.50. Large bulbs (7-9 in.), 20c each, 12 for \$2.00, 100 for \$15.00. Extra large bulbs (9-11 in.), 40c each, 3 for \$1.10, 12 for \$4.00. October to December delivery.

SHUKSAN. This is the best of the hybrids developed by the late Dr. Griffith at Bellingham. It is a vigorous growing variety often 5 to 6 feet high. The recurved blossoms are cadmium yellow dotted black and shaded with red at the tips of the petals. Plant 6 to 8 inches deep in partial shade. Likes porous well drained soil. October and November delivery. Excellent medium size bulbs. Each \$1.00, 3 for \$2.75.

SPECIOSUM RUBRUM. A great favorite as a garden lily because of its beautiful color and shape and the ease with which it can be grown. The large recurved flowers are deep rose with a white margin. Numerous deep rose spots. August-September. Strong Oregon grown bulbs. Plant 8 to 10 inches deep in partial shade. Good drainage essential. November and December delivery. Each 45c, 3 for \$1.25, 12 for \$4.50.

L. TENUIFOLIUM

L. FORMOSANUM

L. HENRYI

SUNSET LILY (*L. Pardalinum Giganteum*). Because of its brilliant color and vigorous growth this marvelous lily has become very popular both in this country and in Europe since its introduction a few years ago. Strong stems 5-7 feet or even 9 feet high with as many as 40 blossoms. The outer portion of the flower is bright scarlet, the inner part is chrome yellow dotted maroon. Much more vigorous and beautiful than *L. pardalinum*. Should be planted by mid-season about 8 to 10 inches deep. Give it good fertile soil where it will have plenty of moisture during the growing season. July. Medium bulbs, 30c each, 3 for 85c, 12 for \$3.00. Large bulbs, 50c each, 3 for \$1.40, 12 for \$5.00. September to December delivery.

SUPERBUM. A beautiful American variety with bright orange-scarlet blossoms spotted purplish brown. Established clumps sometimes have spikes 8 feet high with 20 or 30 blossoms. July-August. Plant 5 inches deep in lime free soil in partial shade. October and November delivery. Each 25c, 12 for \$2.50.

TENUIFOLIUM (*Pumilum*) Coral Lily. Brilliant coral-red recurring blossoms of waxy texture. As many as 20 flowers on a slender graceful stem with long narrow foliage. Very early flowering. The best lily for rock gardens. Plant 4 to 5 inches deep in light sandy soil in full sun. September to December delivery. Large bulbs, 20c each, 12 for \$2.00. Strong medium size bulbs, 10c each, 12 for \$1.00.

TENUIFOLIUM GOLDEN GLEAM (*Pumilum Golden Gleam*). A beautiful form of *Tenuifolium* with golden yellow flowers. Very hardy and easily grown. May-June. Plant same as *Tenuifolium*. September to December delivery. 25c each, 12 for \$2.50.

TIGRINUM SPLENDENS. A very robust large blossoming type of the Tiger Lily. Deserves to be planted freely. Easily grows to 6 feet with 24 buds and blossoms of bright orange-red with nearly black spots. August. Plant 8 inches deep in well drained soil in sun or partial shade. October to December delivery. Large bulbs, 25c each, 12 for \$2.50. Medium size bulbs, 15c each, 12 for \$1.50.

TIGRINUM FLORE PLENO. The double form of the above. The best double lily. 25c each, 12 for \$2.50.

UMBELLATUM GRANDIFLORUM. The large heads of upright flowers are bright red shaded orange. The strong stems have excellent foliage. One of the earliest lilies coming almost as early as *Tenuifolium*. Very dependable and not at all exacting in its requirements. Plant in sun or shade in well drained soil 4 to 6 inches deep. October to December delivery. Large bulbs, 25c each, 12 for \$2.50. Medium size bulbs, 15c each, 12 for \$1.50.

Hyacinths	15	Tulips	10-15
Irises	22-23		

These fine irises are not grown as much as they deserve to be. For garden decoration and as cut flowers they are graceful and long lasting. The colors are clear and delightful. By proper choice of varieties one can have blooms for two months or more. Wedgewood comes first, followed by the other Dutch varieties, then the Spanish, and finally the beautiful English irises end the season. The Dutch irises we list here are mostly the new de Graaff hybrids which are rapidly superseding the older varieties. These varieties are distinguished by a narrow stripe of bright orange-yellow on the falls.

Iris bulbs should be planted about 4 inches deep in well drained soil. October planting is probably best in most parts of the country. Where the winters are severe the beds should be mulched after the freezing begins.

They should have an ample supply of moisture during their growing period but should be kept quite dry during the summer.

RECOMMENDED

Special Collection of Dutch Iris

We are pleased to recommend this collection of Dutch Iris because it is made up from splendid named sorts in a wide range of color. We believe our customers will be delighted with it. Five dependable varieties ranging from dark blue to white.

6 each of the 5 varieties (30 bulbs) for.....\$1.15
60 bulbs (12 each) for.....2.25

Dutch Irises

A. BLOEMAARD. One of the earliest of the Dutch irises. Large flower with dark purplish blue standards, deep blue falls with narrow orange stripe. 12 for 50c, 100 for \$3.00.

BLUE HORIZON (S. de Vlieger). Very beautiful light blue iris of large size. Good stem and foliage. The very broad and strong falls are soft sky blue. 12 for 50c, 100 for \$3.00.

D. HARING. Pure white falls. Standards slightly tinged lavender turning to white. Large flowers of good substance. A strong vigorous variety. 12 for 50c, 100 for \$3.25.

IMPERATOR (Filiolia). Later blooming than the true Dutch irises, connecting them with the Spanish. Deep blue standards and falls. Large, free flowering and a vigorous grower. 12 for 50c, 100 for \$3.00.

All orders amounting to \$2.00 or more sent prepaid. On smaller orders please add 10c to help pay postage and packing costs. No sales tax in Oregon

If out of a variety ordered we will substitute the nearest similar variety of equal or greater value unless notified otherwise.

THANK YOU! If you have friends who are expecting to buy bulbs this fall write their names and addresses below and we will send them copies of our catalog.

PLEASE. If you have received bulbs from us that were not completely satisfactory please tell us about it. If you like our bulbs we would be very happy to know about that, too.

J. W. DE WILDE. Fine large deep yellow, larger and later than Yellow Queen. 12 for 50c, 100 for \$3.00.

JACOB DE WIT. A splendid medium blue iris of a very pleasing shade. The falls are large and somewhat waved. Standards very dark blue. Early. 12 for 50c, 100 for \$3.00.

LEONARDO DA VINCI. Falls canary yellow with orange stripe, creamy white standards. A very attractive large flower. 12 for 50c, 100 for \$3.25.

MORNING MIST (Jan Weenix). A beautiful delicately colored iris. Large flowers with both standards and falls of soft lavender-blue. Height 30 in. 12 for 65c.

POGGENBEEK. Standards and falls uniform dark blue. One of the most attractive and dependable varieties. Early. 12 for 50c, 100 for \$3.00.

THEO WYCK. Large well formed flowers of uniform cornflower blue with narrow orange mark. Early. 12 for 50c, 100 for \$3.00.

THERESA VAN DUYLL SCHWARTZ. Standards pale cornflower blue. Falls pure white with narrow orange stripe. Beautiful cut flowers. 12 for 50c, 100 for \$3.25.

VIOLET QUEEN (W. Zuiderveld). Standards and falls light bluish violet. Finest of its color. 12 for 60c, 100 for \$4.00.

WEDGEWOOD (Tingitania hybrid). This light blue iris is especially popular because of its early flowering—two weeks or more earlier than any of the other varieties. Large flowers of bright Wedgewood blue. Strong heavy stems. 12 for 60c, 100 for \$4.00.

WHITE EXCELSIOR. Large pure white flowers of very good form and substance. Medium height. Early. 12 for 60c, 100 for \$4.00.

YELLOW QUEEN. Clear golden yellow flowers on tall slender stems. Very effective for a splash of clear yellow in the garden and also a splendid cut flower. 12 for 50c, 100 for \$3.

MIXED DUTCH IRIS. A choice mixture made up of the varieties listed above. 12 for 50c, 100 for \$3.00.

English Iris

Of all the irises we think these are the most beautiful. The colors range from white to deep blue, with the most enchanting shades of lavender, orchid and mauve in between. The blossoms are larger than the Spanish and Dutch irises and come later than those types. Plant about 4 inches deep, during September if possible.

MIXED ENGLISH IRISES. Splendid assortment of these magnificent flowers; wide variety of lovely colors. 12 for 75c, 100 for \$5.00.

CATTLEYA. One of the most delightful shades in the English iris—a type which is so outstanding for beautiful coloring. Delicate soft lavender with a suggestion of pink—about midway between the two top flowers of the colored illustration. Vigorous grower. 12 for \$1.00, 100 for \$7.50.

DARK BLUE. A magnificent variety of clear dark glistening blue. Tall stems and large flowers. 12 for \$1.00.

MIXED ENGLISH IRIS

Spanish Iris

CAJANUS. Large graceful blossoms of clear golden yellow on tall slender stems. One of the finest yellow irises for the garden and one of the most delightful cut flowers in the whole list. 12 for 60c, 100 for \$4.00.

GOLDEN LION. A splendid new iris with beautiful ruffled flowers. Standards lemon-yellow, falls golden yellow. Altogether it is a very unusual and attractive iris. Height 26 in. 12 for 75c, 100 for \$5.50.

Iris Reticulata

The violet scented iris. Like a dwarf Dutch Iris of deep violet-purple with yellow blotch. Flowers in very early spring and may be forced by Christmas time. A lovely early flower for the rock garden. Top size healthy bulbs of the finest quality. 3 for 60c, 12 for \$2.25.

Conley's Rainbow Tulip Mixture

We take great pride in our special mixture and try each year to make it better than before. It is made up of a great number of varieties in Darwin, Cottage and Breeder types—all the tall stemmed May-flowering tulips.

The colorings are lovely and include red, pink, lavender, yellow, orange, purple, and bronze shades. We believe that where plantings of mixed colors are wanted you will find Conley's Rainbow Tulip Mixture unexcelled.

First size bulbs (about $4\frac{1}{2}$ in. around, the flowers will be nearly as large as from the top size) : 20 for \$1.00, 50 for \$2.40, 100 for \$4.50, 250 for \$10.75.

Top size bulbs (the biggest and best grade) 15 for \$1.00, 50 for \$3.10, 100 for \$6.00, 250 for \$14.00.
